About Enzen (www.enzen.com)

Enzen Global is an innovative & knowledge-based Consulting, Engineering and Operations organization exclusively working on Energy and Utility (Gas, Power, and Water) sectors. We provide outcome-based turnkey solutions, blending industry best practices and leading-edge ideas with a continuous focus on meeting our customers' expectations.

We work with clients across the value chain to deliver sustainable and lasting improvements to their efficiency and performance. As part of our solution suite, we provide strategy, consulting, digital, technology, management, and operations services. In addition, we develop the commercially successful use of renewable resources to deliver a transformative advantage for our customers.

Enzen focuses on delivering outcomes and has a wide range of advisory and engineering services for the power, water, gas and renewable energy sectors, supported by our specialised Business Units and unique Centres of Excellence. These cover Business Operations, Business Transformation, Enterprise Solutions and Energy & Water Network Operations, and help deliver high-quality, effective, need-specific solutions. Our project work includes but is not limited to smart utility networks, technology optimisation, capital efficiency, asset management and mergers & acquisitions.

Founded in 2006, the business has grown and developed across the globe, with a presence in the UK, India, USA, Spain, Australia, Turkey and Kazakhstan.

Job Description:

Enzen is seeking a talented and motivated Web Developer to join our dynamic team. As a Web Developer at Enzen, you will be responsible for creating and maintaining innovative web applications that align with our business goals. You'll have the opportunity to collaborate with cross-functional teams and contribute to the development of cutting-edge digital solutions.

Responsibilities and Duties:

- **Web Development:** Create and implement web solutions using front-end and back-end technologies, ensuring the functionality, performance, and usability of websites and applications.
- **Coding:** Write clean, efficient, and well-documented code in HTML, CSS, JavaScript, and other programming languages as required.

- **Responsive Design:** Develop responsive layouts that work seamlessly across various devices and browsers to ensure a consistent user experience.
- **Collaboration:** Collaborate with designers, project managers, and other developers to plan, prioritize, and execute web projects, adhering to project timelines and objectives.
- **Testing and Debugging:** Perform thorough testing and debugging of web solutions to identify and fix issues, ensuring optimal functionality and performance.
- **Performance Optimization:** Analyze and optimize website performance, including page load times and overall user experience.
- **Security:** Implement security best practices to safeguard websites and web applications against potential threats and vulnerabilities.
- **Maintenance:** Provide ongoing support and maintenance for existing web applications, addressing issues and making improvements as needed.
- **Continuous Learning:** Stay updated with the latest trends and advancements in web development technologies, incorporating them into projects where appropriate.
- **Documentation:** Maintain clear and comprehensive technical documentation for projects, facilitating seamless collaboration within the team.

Qualification and Experience:

- Bachelor's degree in Computer Science, Web Development, or a related field (or equivalent experience).
- Proven experience as a Web Developer or similar role.
- Proficiency in HTML, CSS, JavaScript, and related frameworks (e.g., React, Angular, Vue).
- Experience working with version control systems (e.g., Git).
- Strong understanding of UI/UX principles and responsive design.
- Familiarity with server-side CSS pre-processing platforms (e.g., SASS, LESS).
- Knowledge of SEO principles and ensuring web applications adhere to them.
- Ability to work collaboratively in a team environment.
- Excellent problem-solving skills and attention to detail.
- Effective communication skills.

If you are a creative thinker with a passion for crafting innovative web solutions, we encourage you to share your latest profile to talent.egsindia@enzen.com if you are interested to Join Enzen team and contribute to the development of cutting-edge digital experiences that make a meaningful impact.
