

The logo for 'enzen' is a white hexagon with a thin white border, containing the word 'enzen' in a lowercase, sans-serif font. It is positioned on the left side of the page, within a large orange decorative shape that has a hexagonal cutout.

Trainee or Analyst

Location: Madrid

About Enzen

Enzen is a global knowledge enterprise which believes in the power of innovation and collaboration to change our world for the better. Our mission is to make energy and water more affordable, accessible and sustainable to all.

As we continue to enjoy unprecedented growth, Enzen needs the best and brightest people to deliver outstanding solutions to our clients, and by doing so help make the earth a more sustainable, cleaner and healthier planet for future generations.

Our growth

Enzen was founded in 2006 in India and the UK. Since then, we've become an international success story with offices in Australia, Portugal, Spain and Turkey, from where we deliver creative solutions for power, water, gas and renewables utilities across six continents.

We've also established a global network of specialist partner companies – fellow innovators who share our passion for innovation. Today, Enzen is a trusted partner to more than 600 customers and employs more than 3,500 'Enzenites' from more than 60 different nationalities around the world.

Why we're different

Enzen is a unique business. Specialising only in the energy and water sectors, we create innovative solutions for utilities that are truly end-to-end, encompassing strategy, transformation, advisory, technology, customer experience and operations.

As such, we offer unrivalled industry knowledge and a combination of visionary thinking and exceptional execution. Through this model, we unlock value, deliver greater efficiencies and drive positive, long-term sustainable change across the utilities sector.

Our goal is to influence our industry so it can thrive in the face of global challenges – and improve the lives of the world's communities for generations to come.

Enzen Spain

Enzen opened the Spanish office in Madrid in 2018. Since its creation, Enzen Spain has grown as the global leader for renewable energy in the Enzen system, covering the full array of technologies: PV, floating PV, wind, offshore wind, green hydrogen, etc. We cover the whole project life cycle, including project origination and development, transactions and due diligence, engineering and deployment. We are looking for motivated individuals to join our team and contribute to the growth of Enzen Spain.

Role Summary

Enzen is seeking a Trainee or Analyst to join its Transaction and Strategic Advisory team in Madrid. Common tasks include:

- Research covering primary and secondary sources, and preparation and communication of findings.
- Execution of analysis using Excel and preparation and communication of findings.
- Assistance in the preparation of documents and articles using Microsoft Powerpoint and Word.
- Assistance in the preparation of proposals and documentation for tendering processes.
- Collaboration in the development of the intellectual capital of the firm.

Key Responsibilities

We are looking for students with a very strong academic record with availability to start working immediately.

- For a Trainee position, no previous experience is required.
- For an Analyst position, at least one year of experience in consulting or energy-related industries is required.
- Preferred students from a master's degree in engineering (background in electrical engineering is a plus).
- Knowledge in economic analysis, financing and modelling for renewable energy projects is highly valuable
- Students with availability to work for at least six months, with possibility to extend the contract and join our team.
- Demonstrate interest in sustainable energy, energy efficiency and the consulting sector.
- Strong analytic and quantitative skills.
- Demonstrable initiative and ability to work independently.
- Strong academic background.
- Strong presentation and communication skills.
- Required language skills: fluent Spanish and an excellent level of English (at least C1). Additional languages (such as German, Italian, French or Portuguese) are considered a plus.

Job Description

- **Position:** Internship (Trainee Analyst) or Analyst
- **Hours:** Full-time (part-time can be an option for a trainee position)
- **Preferred starting date:** As soon as possible

- **Contract duration:**
 - Trainee: Six months (with possibility to extend the contract and join our team as analyst)
 - Analyst: Full-time contract with a six month probationary period
- **Remuneration:** Yes
